Rivkin aims to provide clear and simple information to those reading this eBook. Rivkin provides general advice, securities and derivatives dealing services and accounting administration services. Rivkin does not provide advice that takes into account your, or anybody else's, investment objectives, financial situation or needs. We strongly suggest that you consult an independent, licenced financial advisor before acting upon any information contained on this website. Investing in and trading securities (such as shares listed on the ASX) and/or derivatives (such as Contracts for Difference or 'CFDs') carry financial risks. CFDs carry with them various additional risks that differ from more simple securities such as fully-paid company shares. Some of these risks include not owning the underlying instrument from which a price is being derived, settling trades 'over the counter' with a financial institution rather than on a stock exchange, and using leverage to gain access to trades that may have a higher face value than your initial deposit. This risk of leverage means that it is possible to lose more than your initial investment. Our aim is to create more life choices for our clients, which means improving the wealth of clients throughout many market cycles by nurturing a relationship spanning many years. If you are not comfortable with your understanding of the risks involved before using a Rivkin product and service, please contact our office or go to www.rivkin.com.au to seek further information or a Product Disclosure Statement, or make an appointment to sit with one of our friendly financial experts. It is in our interest for your Rivkin experience to be a rewarding and comfortable one.
